# About Us

IDEAL Public Health and Development Consultancy (IPHDC) offers training and capacity building services which meet international quality standards and address local (Institutional and individual) contexts to empower development and humanitarian actors to deliver desired results in their work. The standard and tailor-made courses offered by IPHDC are broadly categorized into three thematic areas:

Public Health Promotion, Program Management, Cross-cutting Issues

## **Our Mission**

To enhance the capacity of development and humanitarian actors to achieve their vision, mission, objectives and context.

## **Our Vision**

To be a leading international consulting firm providing specialized services to our clients in a professional, innovative and inclusive manner.

## **Our Values**

Equity, social justice, honesty, professionalism, inclusive participation and accountability.

## **Our Quality Statement**

- To ensure that our staff, processes and procedures adhere to the highest quality standards;
- To ensure that we continuously improve our training and consultancy services by learning and benchmarking against internationally tested best practices.

“We are committed to meeting our clients' individual and corporate expectations through responsive training services”

## Course **Schedule**

IPHDC exists to enable development and humanitarian actors to enhance their performance in relation to their vision, mission, objectives and context. We do this through provision of relevant and appropriate technical support to agencies that ultimately ensures responsive interventions among the communities they work with.

In order to achieve this objective, we have planned to conduct a number of standard short courses on a quarterly basis to be held at CORAT Africa in Karen, Nairobi. See map of the venue at the end of this programme.

“

*“We envisage to have an increased capacity of humanitarian and development actors for sustainable service delivery”*
